

Genesis 1-2

Part A: Days of Creation

Write what God created on each of the days of creation:

Days 1/4 (Light/Sun, Moon, Stars)	Days 2/5 (Sea, Sky/Fish, Birds)	Days 3/6 (Land, Plants/Animals, Man)
		

Part B: Theistic Evolution

Give a defense against the following arguments for theistic evolution:

- 1.) The “Gap Theory” (i.e. God created a “Pre-Adamic” world)
 - Exodus 20:11 – In **six days** the Lord created the heavens, the earth, and **everything**, in them. (No mention of a second creation).
 - No division between Genesis 1:1 and Genesis 1:2 – verse 2 simply continues the thought.
- 2.) Each day of creation was an “age”
 - One could not get this idea from the text; it specifically notes days.
 - “Evening and morning” indicates days, not ages. (If this “evening and morning” refers to long periods of light and/or darkness, then life could not continue – plants would not survive).
- 3.) God created the fundamentals of life, and the rest evolved
 - A day could not have been a thousand years (i.e. 2 Peter 3:8) – evolution, according to science, takes far longer than that.
 - Genesis 1:9-13 – God’s creation was mature and full-grown.
 - Acts 14:15, Acts 17:24 – God created **all things** in the heavens and the earth.
